## Curriculum Vitae

**Progressive and innovative Producer and Director of Photography** who has always lead the way by embracing new technology and new techniques over the course of his extensive career.

Having worked in film for 35+ years, he was the first professional producer to embrace the new HD Digital Cinema format, as pioneered by George Lucas, with the acquisition of the **first F900 Sony CineAlta in Australia.**

Geoffrey was also an **early pioneer with non-linear editing** and continues to this day to pioneer progressive new techniques and technologies aimed at delivering international content to an ever changing production and distribution environment.

*"Geoff has the uncanny ability to make a small budget film look like a big budget film.  
I've worked with him for over 20 years  
and am still surprised by how he manages to pull it off."*

Awarding winning Australian film producer DAVID HANNAY
